### Career Objective: -

I am seeking an opportunity in an organization where I can continuously enhance my skills, expand my knowledge by learning new technologies, and actively contribute to the organization's growth by effectively utilizing my technical knowledge and creative thinking.

### Educations: -

- **Graduation:**  
Bachelor Of Technology in Computer Science & Engineering. 2020 – 2024.  
Centurion University of Technology & Management Odisha.
- **Intermediate:**  
CO.H. Inter College Jagdishpur, Siwan. 2017 – 2019.
- **Matriculation:**  
CO. Hight School Jagdishpur, Siwan. 2017.

### Experience: -

#### Mindmanthan Software Solutions: -

*Present- on site.*

##### **Web Development Intern: -**

*12 Nov.- 2025.*

- During my journey at Mindmanthan, I worked on various real-world projects and played an active role in the company's website development.
- Initially, I designed UI for different pages of the company website using **HTML, CSS and Bootstrap** and made the header and footer fully responsive. Under this, approximately **30 static frontend UI pages** were designed and developed, with a strong focus on clean layouts and user-friendly structure. [\(Live\).](#)
- After that, I worked on a **WordPress website**, handling both **frontend and backend development using PHP**, which included page customization and functional updates.
- Additionally, I redesigned the **Figma design** provided for the **ATS project**, focusing on improved **UI/UX and a modern layout**.

#### Prodigy Infotech: -

*Remote.*

##### **Web Development Intern:**

*15-july-2025 to 15-oct.-2025*

- During my journey at Prodigy InfoTech, I worked on several frontend-based projects. First, I designed and developed a **Tic Tac Toe** game. [\(Live\).](#)
- After that, I worked on a **Gallery website**, where real-time weather information was presented with a user-friendly interface. [\(Live\).](#)
- Then, I fully designed and developed a **Parallax website**, focusing on modern scrolling effects and an interactive UI. [\(Live\).](#)
- In all these projects, I used **HTML, CSS and JavaScript** and handled the complete frontend development on my own.

### Technical skills: -

- Knowledge in writing **SQL** queries using RDBMS concepts, with experience in databases like **MySQL**.
- Basic knowledge in **C++** programming.
- knowledge in **HTML, CSS, Tailwind, Bootstrap, JavaScript, React JS, PHP**.
- Knowledge in **WordPress**.
- knowledge in **MS word, MS excel, MS PowerPoint**.
- Operating System: Windows 10 /Windows 11.
- Tools: Vs Code, notepad++, Vercel.

## Academic Projects: -

- ❖ **Hostel Management System:** A web-based Website to Manage the Information of Hostel Staff and customer and I have using technology HTML, CSS, BOOSTRAP, PHP MYSQL. Created using Web Development.
  - ❖ **Student Subject Registration System:** A website for managing and registering subject in college it means how to registration subject, Attendance, profile changing. It is created using technology front-end Reac.js and in back-end Spring Boot and MySQL.
- 

## Certificate: -

- Hacker Rank skill Certifications. [\(URL\).](#)
  - Web Development Inter – Prodigy Infotech. [\(URL\).](#)
- 

**Hobby:** Listening to Music, Playing Ludo.

---

## Self – Assessment: -

I do here by declare that the above statement given by me is true to the best of my knowledge and belief and I look for a chance to prove my competency.
